since his death in 1997 isaiah berlin's writings have generated continual interest among scholars and educated readers especially in regard to his ideas about liberalism value pluralism and positive and negative liberty most books on berlin have examined his general political theory but this volume uses a contemporary perspective to focus specifically on his ideas about freedom and liberty isaiah berlin and the politics of freedom brings together an

integrated collection of essays by noted and emerging political theorists that commemorate in a critical spirit the recent 50th anniversary of isaiah berlin s famous lecture and essay two concepts of liberty the contributors use berlin s essay as an occasion to rethink the larger politics of freedom from a twenty first century standpoint bringing berlin s ideas into conversation with current political problems and perspectives rooted in postcolonial theory feminist theory democratic theory and critical social theory the editors begin by surveying the influence of berlin s essay and the range of debates about freedom that it has inspired contributors chapters then offer various analyses such as competing ways to contextualize berlin s essay how to reconsider berlin s ideas in light of struggles over national self determination european colonialism and racism and how to view berlin s controversial distinction between so called negative liberty and positive liberty by relating berlin s thinking about freedom to competing contemporary views of the politics of freedom this book will be significant for both scholars of berlin as well as people who are interested in larger debates about the meaning and conditions of freedom

on pp 28 36 the holocaust and pp 125 141 eichmann discusses a reinterpretation of the controversy over arendt s views on the origins of totalitarianism the guilt of the jews and the evilness of eichmann suggests that one has to interpret eichmann s behavior as that of a private man entering the public realm aiming to achieve private self interests contends that use of this terminology and way of thinking can explain arendt s apparent inconsistencies in her views on the holocaust

comprising essays by eleven up and coming scholars from across the globe this collection of essays provides an unparalleled snapshot of new work in political philosophy using such diverse methodologies as critical theory and social choice theory historical analysis and conceptual analysis

it s difficult to overstate the impact of conservative economics on american life the conservative thought of economists like milton friedman james buchanan and friedrick hayek has provided the conceptual framework that undergirds nearly every aspect of current u s social economic policy although a great deal has been written about the economic theories of these nobel prize winning economists this study is the first to examine the political theory that underlies conservative economics and its implications for public policy long associated with the chicago and public choice schools of thought friedman buchanan hayek and others have consistently repudiated keynesian principles they have steadfastly opposed social welfare policies and regulation of private enterprise championing instead the free market as a mechanism for ordering society in this book conrad waligorski analyzes the political content of the conservative economists arguments in so doing he

illuminates the political economic and philosophical ideas behind and justification for the laissez faire policy the reduced regulation intervention and welfare favored by conservative governments in the united states canada and britain

this edition of a 1995 book sage publications contains a new introduction by the series editor and a new preface readers familiar with foucault s work will appreciate the difficulty in critically studying its arresting paradoxical nature dummm political science amherst college negotiates the problem by creating a thematic framework the idea of being free in a modern western capitalist democracy and examining it through a foucaultian lens he focuses on the politics of freedom negative freedom the disciplinary society ethics seduction governments and provides an enlightening companion to foucault s postmodern philosophy annotation copyrighted by book news inc portland or

an exposition and critique of the views of marx and marxists in which marx s views are compared with other views and are explored in terms of theories causes and the transcendence of alienation self alienation and self realization and economic religious philosophic scientific social and political alienation

with a new introduction by the author the vital center is an eloquent and incisive defense of liberal democracy against its rivals to the left and to the right communism and fascism it shows how the failures of free society had led to the mass escape from freedom and sharpened the appeal of totalitarian solutions it calls for a radical reconstruction of the democratic faith based on a realistic understanding of human limitation and frailty

with the increased digitisation of society comes an increased concern about who is left behind from societal causes to the impact of everyday actions the digital disconnect explores the relationship between digital and social inequalities and the lived consequences of digitisation ellen helser goes beyond questions of digital divides and who is connected she asks why and how social and digital inequalities are linked and shows the tangible outcomes of socio digital inequalities in everyday lives the book introduces the key theories and concepts needed to understand both traditional and digital inequalities research investigates a range of socio digital inequalities from digital access and skills to civic participation social engagement and everyday content creation and consumption brings research to life with a range of qualitative vignettes drawing out the personal experiences that lay at the heart of global socio digital inequalities the digital disconnect is an expert exploration of contemporary theory research and practice in socio digital inequalities it is also an urgent and impassioned call to broaden horizons expand theoretical and methodological toolkits and work collectively to help achieve a fairer digital future for all ellen

j helsper is professor of digital inequalities at the department of media and communications at london school of economics and political science

this innovative approach to freedom starts from an account of what we mean by describing someone in a psychological vein as a free subject pettit develops an argument as to what it is that makes someone free in that basic sense and then goes on to derive the implications of the approach for issues of freedom in political theory freedom in the subject is equated with the person s being fit to be held responsible and to be authorized as a partner in interaction this book is unique among contemporary approaches although it is true to the spirit of classical writers like hobbes and kant in seeking a theory that applies to psychological issues of free agency and free will as well as to political issues in the theory of the free state and the free constitution the driving thesis is that it is only by connecting up the different issues of freedom psychological and political that we can fully appreciate the nature of the questions involved and the requirements for their resolution the book does not seek a comprehensive reach just for its own sake but rather for the sake of the illumination it provides a theory of freedom is a ground breaking volume which will be of wide interest to scholars and students in political philosophy and political science

winner 1996 elaine and david spitz book prize for the best book on liberal and democratic theory conference for the study of political thought winner 1994 first book prize foundations of political thought organized section american political science association between the norm and the exception contributes historical insight to the ongoing debate over the future of the rule of law in welfare state capitalist democracies the core issue is whether or not society can offer its citizens welfare state guarantees and still preserve the liberal vision of a norm based legal system franz neumann and otto kirchheimer in an age dominated by hitler and stalin sought to establish a sound theoretical basis for the rule of law ideal as an outcome of their sophisticated understanding of the liberal political tradition their writings suggest a theoretical missed opportunity an alternative critical theory that might usefully be applied in understanding and perhaps countering the contemporary trend toward the deformatization of law
